

**Echo & The Bunnymen: Dancing Horses
(MVD Visual DVD, 135 min.).**

Vocalist Ian McCulloch and guitarist Will Sergeant are the remaining original members and they are in fine form, backed by four younger, very competent musicians. This is a 19-song November 2005 concert at Shepherds Bush Empire in England. The 87-minute show includes such favorites as "The Killing Moon," "Villers Terrace," "The Cutter," "Lips Like Sugar" and "Ocean Rain," although unfortunately "Do It Clean" is absent. There are four songs from the band's latest album, "Siberia." Visually, the stage is usually dark, with lots of blue lighting used. A solid bonus is 48 minutes on interviews with McCulloch and Sergeant. **Grade A-**
