

[Echo & the Bunnymen: Dancing Horses](#)

With their chiming guitars and Ian MacCulloch's commanding baritone, alterna-rockers Echo & the Bunnymen always seemed like [U2](#)'s evil twin. They had the tunes, but none of the American success. This 20-song set from 2005 is bluster-free. Longtime fans will love versions of "The Cutter" and "Killing Moon" (memorably featured in [Donnie Darko](#)). Newcomers have work to do. And Bono is probably still taking notes.
