### **New Model Army To Release 1601203 DVD In North America**

Posted by: Admin on: Sat, Apr 28, 2007

NEW MODEL ARMY will release their DVD called *1601203* in North America on June 26th through MVD. This performance was filmed & recorded at The Astoria in London on December 16th 2003. It's an eight camera shoot that boasts 21 tracks and exclusive interviews. Named after the English revolutionary army of Oliver Cromwell, and led by guitarist/vocalist, Justin Sullivan, the band is widely known for their unwavering commitment to their original vision of music and performance and their ethical code. Over the years, they have gained an extremely loyal, global, multi-generational cult following referred to as The Family. This high quality DVD brilliantly captures their dedication to their art and to their fans. The band have now completed the recording of all the tracks for the forthcoming album *High* with producer Chris Kimsey. They are currently mixing and if all goes according to schedule we are on course for a late summer release. An extensive tour is being planned for the end of the year which will see the band return to South America for the first time in almost 15 years, coast to coast in North America, throughout Europe and plans are being laid for a run of dates in Turkey in December.
