

ONSLAUGHT/Live Polish Assault 2007 DVD/CD (Metal Mind Productions) Oh this just blows me away. 14 tracks of some of the heaviest and fastest thrash metal you will hear. 14 tunes that will blow you out of your seat. This also contains a CD of the show and some bonus stuff from 2006 with 4 tracks of some live stuff from Japan and also a couple oldie clips from 1987. The band just sound great live and blast through a set of stuff from their latest release to some golden oldies from the 80's. The camera work and sound are A plus and this is a thrash metal fans' must buy purchase. Info:
