

THIS IS BLACK METAL/DVD (MVD Visual) This is a bunch of black metal videos and some interviews too. Celtic Frost start things off with a new track of their last release and I wasn't too impressed with this new tune, but the interview was cool. A nice Venom interview can be found on here as well as Throes Of Dawn, Emperor (live stuff too), Morbid Angel, Cradle of Filth and others. You also get an interview with eye candy girl Jasmine St. Claire. Not a bad DVD if your into black metal. Info:
