'KISS Loves You' DVD Due In November - Oct. 5, 2007

MVD Visual has set a November 20 release date for the "Kiss Loves You" DVD, a wistful documentary about worldwide KISS nostalgia featuring rare treats like KISS in Stockholm 1976. A description of the set reads as follows: "Ten years in the making, 'Kiss Loves You' is a film that began back in 1994 when the band KISS was at a career low and KISS fans around the world were starting tribute bands, uniting at unofficial KISS conventions and growing increasingly more nostalgic for the '70s-era classic KISS lineup. The zeitgeist exhibited at these conventions was not lost on the band and in 1996 they responded, rising up like a grease-painted phoenix into a new era of success. On the surface, KISS fans got exactly what they longed for, but for some the return of their idols brought unexpected consequences. 'Kiss Loves You' follows a few KISS fans along the way.

Bonus materials include never-before-seen silent Super-8 film of KISS in Stockholm 1976; extended footage from the 1996 KISS press conference on the USS Intrepid; the "Beyond Vaudeville" KISS spectacular program; and 90 minutes of outtakes from the film.

If KISS loved us this DVD would be free. Apparently selling DVD's and more Greatest Hits albums with the same songs every time makes more money than recording new songs.

Gene Simmons doesn't love the fans..He loves the fact that they work for little to nothing in wages and they take that hard earned money anf give it to him and Sissy Stanley...I cant wait for ace's big comeback as a solo artist to show what it means that he loves the fans..Hey Gene I bought a bunch of your garbage when I was young and Stoopid..How about a refund..Or a naked roll around with your daughter?? after all Gene you violated 5000 women who were somebodies daughters..You FKN ASS_HLE SIMMONS!

Just to clear up some misconceptions that people have...
Paul Stanley and Gene Simmons are Kiss, and whoever they choose to put in the band with them. Peter and Ace are only revered because they were the first. They were certainly the weakest musically. The lineup with Eric Carr (RIP) and Bruce Kulick was clearly the best. Anyone who wants to dismiss the music from the past clearly doesn't have a clue what they're talking about. Clearly, they're not Led Zeppelin, no one is, but they had what they needed, especially w/o makeup. Kiss is the only band who has a market to sell the things that they do. Name one other band that could. They would be morons not to. Oh, and by the way, the asshole who made the comment about getting to fuck Sophie, that was truly classless, but then again, I think we all knew that.

Too bad that doesn't include a new CD that isn't a "Best of", "Greatest Hits", "The Essential", or anything not remastered.

What an ass clown. The Original Kiss is Kiss, and the best line up for true Kiss fans. Everything else was mediocre at best and fake Kiss. I'm a musician so yes I realize musically Ace and Peter werent masters of their instruments but that doesnt always matter in Rock n Roll. For example, Angus Young. What matters is feel and soul and Ace and Peter have that. Bruce Kulick is probably my least favorite guitarist in the world.

This is yet another crappy fanmade bootleg trying to cash in on the legacy of KISS. I'm surprised these things even come out at all. Gene will probably sick his lawyers on this one. Don't waste your money! Wait for KISSOLOGY Volume 3 in December.

 **COMMENT | this isnt marketed by KISS, it rips on KISS and KISS fans**

but in a good way- this film was done by a Kiss Fan about Kiss fans- tribute bands, collectors, etc. It shows how Gene and Paul showed up at a convention and *stole* all their previously owned stuff back from collectors so the money hungry ghouls could have their own ridiculously high priced convention... god forbid any of the little people should ever make a bick promoting them.

But this film is not a KISS product, just to be clear.

PS: the movie is well done and hilarious: and, if you are an east cost KISS fan, chances are you might see yourself in it. the filmmaker has made other documentaries, and they are all enjoyable: methinks alot of chatter has happened about this flick without most of the chatterers here having seen it... frankly, it was pee yer pants funny in some places. to each their own, but, the style of this film was just great. Oh, and I meant buck: I can think, I just can't type!
