

GANG OF SOULS

“For anyone who’s beyond just digging ON THE ROAD or HOWL, beyond his first pair of shades or her first pair of black stockings, GANG OF SOULS is the movie to watch, the one that takes you deep into the soul of not just the Beat Movement, but the spirit of rebellion and unfettered creativity that put America and the world on a whole new track into the 21st century. If you cannot imagine a world without the Beat Generation, then you need to see GANG OF SOULS to understand how it all was done, and to let these Beat souls enchant you into a frenzy of creativity yourself.”
