

DEAD BOYS/Revenge Of The Living Dead Boys DVD (MVD Visual) This is a DVD of the reunion concert of punk rock gods The Dead Boys from 1986, plus a very old interview from back in the day. This was filmed with 1 camera at the old Ritz in NYC. The band rip through a killer set and sound tight and even play Sonic reducer 2x. While the camera work is only one camera, it is still good and the sound is better than average and the band sound tight and look like they are having fun onstage. This band were one of the 1st wave of punk bands in the late 80s and if you were around at that time like me, you'll treasure this and if you weren't, why don't you pick this up and see what the fuss was all about cause this is a pretty fine piece of DVD stuff and the interview with a couple of band members from some local TV show is priceless.
