DVD Review - Liberty in Restraint

Directed by Michael Ney and Frank Shields

MVD Visual

Liberty in Restraint is Michael Ney and Frank Shields' intensely informative and illustrative documentary on Noel Graydon, a photographer-turned-dungeon master-turned-family man. This film generously depicts Noel's personal experiences as a professional photographer and carries viewers alongside his journeys through Australia's BDSM scene (BDSM - bondage/discipline, dominance/submission, sado-masochism), his drug addictions and recovery as well as fatherhood.

In this film viewers will learn about a world of rope artists, lapsed Catholics, pain sluts, adult babies, electro-torture, blood and needle play. Activities such as these were Noel's artistic influences and soon led him to put a hold on his photography in order to fully indulge himself in his passion; dungeon life. These fetishes were not only extremely well-represented by the artists involved in this film, but also showed that these activities are not debilitating and always practiced under safe, sane and consensual circumstances by experienced professionals.

This is an extremely resourceful film for both the fetish novice and extremist alike. It not only sheds light and entails many different aspects and types of bondage and fetishes, but it also explains the positive reasons that these fetishes exist and are practiced to this day. Liberty in Restraint will surely delve you into depths of imagination and desires that you didn't realize existed. These fetishists will show you that BDSM should be approached as "an advanced driving course in sex" rather than a stigmatic, freaky goth thing.

If you are looking to spice things up in your sex life or to simply learn about what else is out there, this is a great documentary to check out. It definitely brought light to a few ideas that I thought looked pretty fun, now I'm finding myself wanting to go out and learn the art of rope tying. All in all very informative as well as explicit, so be advised that watching it with the volume turned up may turn some heads.
