Bikini Bloodbath
 2007

Want a [funny movie](#) to watch? Something that will made that will make you giggle? Well, this isn't the [film](#) for you. Though, it will probably make you laugh hysterically til you piss yourself, but it won't be because it is actually funny... it will be because it is absolutely ridiculous.

The basis of the [movie](#) is that on their last day of [high school](#) seven hot girls have a slumber [party](#) to celebrate their going away to college, while across town a maniacal chef is going on a killing spree... soon to arrive at the girls party, but not after a bunch of crazy things happen.

And while we are not visiting the girls in their bikinis partying we get to visit the [football](#) players (known as this by their T-shirts that say "Football Player") having their, um, gay festivities at their own [party](#) with their perverted coach.

This fabulous release can be found through Eclectic (a division of MVD Entertainment Group). It will [cost](#) you a whopping \$14.95 and runs 82 minutes in length (you'll be glad it's not longer as you watch it, though you still won't be able to peal your eyes away). This sure-to-be hated DVD is available as of December 11th.

In conclusion, this [movie](#) will leave you wondering whether you should laugh or cry- laugh because it is just so ridiculously stupid or cry because you can't believe you are watching it at all. The even scarier part is that you won't be able to stop yourself until the bitter end (and trust me, it is pretty darn bitter).

Bikini Bloodbath stars a bunch of people you've never heard of, or will [care](#) to hear of again- Enjoy!
