Richard Kern is an adult photographer & sometimes he films movies..this dvd is basically a collection of short clips he's filmed with over 50 women in various poses, & it's an adult release, but it's also artistic & I'll admit it, it's something the guys will totally dig...lotsa T&A!! There's some bonus footage that's basically these short little movies that are kinda grainy, dark, & like a college movie you'd make in a film class...I totally dig it, & there's no denying, the women in this dvd are gorgeous, they are all real, there's NO actors here, it's all on the fly &, again, if you know who Richard Kern is...you know what to expect!

is killer!
