EARACHE MY EYE/Various Artists (MVD Visual) This is a neat package of some classic videos of such classic Earache bands like: Godflesh, Entombed, Cathedral, At The Gates, Carcass, Sleep, Fudge Tunnel, and a few others. Some of these videos were seen on Headbanger's Ball at 3am, but you had to sit through 2 hours and 45 minutes of hair metal to see a good video. I actually stayed up some nights to see these videos. This is when Earache was one of the premier underground labels going and watch these vids and you'll see why. This is the soundtrack of hell. Info:
