1 CRUSHER COMPLETE/Various Artists DVD (MVD) This was one or actually 2 discs that I could not wait to open and play. This is licensed from Earache Records and includes almost 40 clips of bands. How in the fuck can you go wrong with such bands as Morbid Angel, Godflesh, The Haunted, Napalm Death/Carcass/Entombed (from 89/92-these 3 clips simply crush), Hate Eternal, Usurper, and many, many more. So many more this had to be thrown on 2 discs, not one! This combines Vol's 1 and 2 onto one package and I have not herd of either volume and I about raced home when I got this and popped it right into my DVD player and I about smiled for quite a long time. This is cool for any fan cause you will get some of the more famous underground bands and you get to check out some bands that maybe you have heard the name, but maybe not the music, so get this baby and crank it up LOUD.
