Sixteen Days in China

Travelogue

★★★

In 2006, former PiL/NiN/Ministry drummer and current indie-label honcho Atkins went to Beijing — and found a vibrant underground scene that rivaled (according to him, anyway) London in the late '70s and New York in the early '80s. This fast-paced, artfully edited 68-minute travelogue follows his fascinating (and often frustrating) cross-cultural adventures. It's worth the trip.
