## 'Marillion - Somewhere in London' (Marillion / DVD / NR / 2008 / Racket)

**Overview:** Marillion are one of the UK music scene's best kept secrets; purveyors of soulful, powerful, and often deeply-moving music, whose blistering live shows leave their audiences breathless. This concert film puts YOU in the crowd, filmed over the final 2 nights of their 2007 tour.

**DVD Verdict:** Having only been introduced to Marillion about three years ago, I am still at a loss to explain how this group is "undiscovered" here in the USA. What other group can create a CD by PRESELLING the CD to it's fans not just once but TWICE?

What other musical group can have a weekend long convention that sells out each and everytime?

Not U2, the Stones, Clapton, Good Charlotte, Red Hot Chilli Peppers, etc. Nope, nobody but MARILLION! And this DVD showcases why they are loved throughout the World. The music and emotion come pouring out of the television, washing over the viewer and creating the need to view this DVD over and over again!!

How lucky the fans are who are able to see Marillion multiple times during their tours!! Those of us who live to far away to get to a gig can relish the fabulous 'Somewhere in London' DVD!! Featuring music from their latest album (of course, named 'Somewhere Else') the DVD shows the band in outstanding form in front of a sell-out crowd at The Forum in London.

So do yourself a favor, either pick it at an FYE store, but it online somewhere, or get to [www.Marillion.com](http://www.Marillion.com) and not only purchase this DVD, but download a FREE sampler CD and see what you have been missing out on all these years!
