## **MARILLION - "SOMEWHERE IN LONDON" 2-DVD SET**

This new extended DVD release includes the full concert film, plus a second disc containing other songs performed during the U.K. band's two-night, 2007 stint at the London Forum. An interesting featurette is also included. Four surround mixes of tracks from Marillion's "Somewhere Else" album will totally immerse you. This prolific, atmospheric rock group deserves greater recognition in the U.S. Musically and visually, these discs dazzle.
