THE MEATMEN

The Devil's In The Detail Volume 1

(MVD Visual)

by *Chris Forbes*

I saw The Meatmen several times at City Gardens back in the 80's and this DVD brought back some killer memories. The Meatmen were a hardcore band that took no prisoners with their music and their lyrics. This DVD has lots of old cool footage of the band from back in the day and the quality is even pretty good for today's standards. The band played no frills hardcore punk with Tesco Vee leading the way on vocals. Over 15 tunes and some interview footage made this a delight to watch. This is only Volume one as Tesco has promised more to come in the future. I for one can't wait. Info:
