## Limp Bizkit

### ROCK IN THE PARK 2001

(MVD)

Remember when Fred Durst was to MTV what Hitler is to the History Channel? This Limp-wristed concert DVD, featuring an 80-minute set recorded in Nuremberg, Germany, in 2001, will take you back to those platinum days when Bizkit cranked out inane but irresistible singles and outsold pretty much everyone. The sad extras include a semi-comatose interview with DJ Lethal and a "remix" version of the set, which is not remixed at all, though it does incorporate some truly irritating high-school-TV-class video effects. **PETER GIANNASCOLI**
