## *Shawn Mullins – “Live at the Variety Playhouse” (DVD)*

Have you ever gone camping or to a friend's kickback and one of your friends pulls out a guitar and strummed out a few songs for you? That's exactly what you are getting with Live at the Variety Playhouse. Shawn Mullins is just like a good friend in the first of two sets on this DVD, as he plays acoustically for a packed venue of his 'close friends'.

Mullins seems to really enjoy the relaxed atmosphere and is very at ease.

In his second set, an all-star band joins him on stage for a more traditional concert, but with the warmth that was evident in the first solo set.

“Lullaby”, “Beautiful Wreck” (the music video is also included on the DVD), “Shimmer” and “All My Head” are all included on this 74 minute DVD
