

Public Enemy

**Revolverlution Tour
Australia 2003**

Rap

★★★

Of the several old Public Enemy live DVDs that could be reissued, this five-year-old club show from Down Under probably wouldn't be at the top of our list. Still, you could do worse. The show itself clocks in at over two hours and includes all the essential hits. And there's another 90 minutes or so of extras, including the usual tour doc footage, discography and more.
