

### **HISTORY ON MY ARMS - MVD**

History on My Arms presents two compelling documentaries on the late Ramones bassist Dee Dee Ramone, a subject who was surprisingly willing to engage with the camera. Hey! Is Dee Dee Home? is a moving and chaotic portrait of the music legend's life, with director Lech Kowalski drawing on a potent mixture of vintage footage and talking-head tributes to the affable yet drug-addled Ramone. In Vos Paris, the charismatic figure of the New York scene reveals the entire story behind what happened when he got together with some fellow musicians to form a punk super group in late-'90s Paris. Not just for music lovers, this dvd is a wonderful addition to any library.
