DVD Review: *Bikini Bloodbath Carwash*

January 22, 2009 by **Yvonne M. Glasgow**

Recommend (2) | [Single page](#) | [Font Size](#) | [Post a comment](#)

Bikini Bloodbath Carwash is the sequel to Bikini Bloodbath. In this sequel a bunch of bikini clad girls hold a carwash, they get wet, they flirt and they have a seance. What on Earth do a carwash and a seance have to do with each other? Nothing at all. But then this movie pretty much has no point anyway.

Just like in the first movie the guys once again wear t-shirts that tell who they are and the girls wear next to nothing (or

nothing at all). Though mostly painful to watch the movie does have its clever parts (like the t-shirts). When a movie starts out "brought to you by who the [F***] cares" you must know that it isn't going to be that stellar of a flick. The people that made it probably didn't want anyone to know who they are so that they wouldn't get the backlash for making what could possibly be the worst movie ever..

Oh, and PLEASE make Scarlet put more [clothes](#) on! if you are going to have girls running around half naked at least have them be good looking with nice bodies (barf).

Anyway, there's pretty much no talent in the making of this film, in front of or even behind the cameras. But if you like tasteless, stupid horror flicks with lots of blood and tits you may still be able to find some redeeming points to this movie.

June 14th: World Blood Donor Day

This day is set aside to raise awareness of the world's need for safe blood, to pay tribute to those who have sacrificially donated their own blood for the benefit of others, and to encourage healthy people to give blood as often as they can.

FDA Uploads Ban on Gay Men Giving Blood

The government has upheld a 1983 prohibition seeking to ban any and all gay men from donating blood. This ban was set into place in 1983 to help to prevent the spread of HIV through blood transfusions.

Can Science Create The Perfect Blood Type?

Although estimates vary, it appears that every year the world needs 7.5 million more liters of blood; by 2030, experts anticipate there will be an annual shortfall of four million units (a unit is 500 milliliters) in the U.S.
