Classics of French Erotica: My Body Burns; Erotic Diary of a Lumberjack; Truck Stop (MVD)

Classics are a trio of '70s sex romps from French model turned director Jean-Marie Pallardy. Burns follows a small town notary who gets married to cover up his penchant for kin; Erotic concerns a professor who splits the academic scene to become a country pimp (!); and Truck Stop, the looniest of the lot, is a modernized softcore take on The Odyssey - honest. Sleazy, irresponsible, leery and proudly dumb - this is Euro-smut at its "finest." Each DVD includes trailers for other Pallardy flicks and an interview with the director.
