

**DVD** **BOB DYLAN NEVER  
ENDING TOUR DIARIES**  
**WINSTON WATSON**

*The meticulously catalogued highs and lows of life on the road with Bob Dylan*

Winston Watson spent four years touring with Bob Dylan in the '90s,

meeting presidents, royalty, and jamming with much of rock's aristocracy along the way. This documentary could have been narcissistic, but Winston has real charm and is engagingly honest throughout. As much a film for Dylan fanatics as drummers, this is a fascinating insight into playing for a genuine icon. As Winston quips, "You're not going to see Bob in his underpants," and there's very little live music, but you learn about the full gamut of emotions that come from working with him. (MW)
