

### **Punk in London/Punk in England/Reggae in Babylon (MVD)**

German director **Wolfgang Buld**'s alternately enthralling and eccentric trio of features covering the punk uprising in England circa 1977 finally arrive on Stateside DVD; expect live footage of the **Clash**, **Adverts**, the **Jam**, **Ian Dury**, **Madness**, and the amusing sight of **Arturo Bassick** of the **Lurkers** attempting to

conduct an interview while his parents enjoy disco on **Top of the Pops** nearby. **Reggae in Babylon** covers both the new wave of Jamaican music (**Steel Pulse**, **Aswad**) and its forerunners (**Alton Ellis**) as they attempt to gain a foothold in late '70s England.
