## DOA

### **The Men Of Action DVD/CD (Sudden Death Records)**

Who doesn't need a video history of the greatest D.O.A. hits? Actually the question is rhetorical if you have any interest in punk rock! This DVD is 73 minutes of live, TV appearances and music videos, with all the songs delivered in true DOA style. All your favorites are on here: "America The Beautiful", "Liar For Hire", "Fuck You" as well as 23 other gems. I have to say I laughed at Joe miming on one of the music videos but

that just adds to the charm of this release. If you are like me and get easily bored with music DVDs then check out the anarchy program which has Joe telling

the history of DOA while the music plays. Speaking of music the audio has been remastered to give the songs even more punch. In case this is not enough to get you to open your wallets there is a bonus CD of the new D.O.A. album "Northern Avenger" which is one of their best releases in years. This is a win-win release! (BBB)
