The Zombies

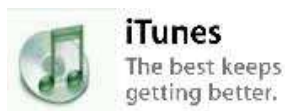

Odessey & Oracle 40th Anniversary Live Concert DVD

Review by Gary Hill

Celebrating the 40th Anniversary fo their *Odessey & Oracle* album, The Zombies played the entire disc in its entirety in concert in 2008. Fortunately for those of us who weren't lucky enough to be in the audience, the whole set was preserved for release on DVD. The group performed not just that disc, but several other songs from their catalog. The concert is just plain killer. If you are a fan of The Zombies, or just of that genre of music in general, you'll appreciate this one. The video and audio are also top notch, making this somewhat of a "must have" set.
