--THE PLOT

--FINAL THOUGHTS

Dirtbags: Evil Never Felt So Good is officially the worst movie I've ever seen, and I've seen a lot of fucking films. Imagine a sitcom made especially for metal-heads, and imagine that it was directed by Lloyd Kaufman's retarded son. **Dirtbags** would be the end result.

It's clearly an exploitation film, and when I went to IMDb to confirm

this, I was surprised to find an image of the film that proudly stated that it was "Banned in 69 Countries." Clearly this is nothing more than a badly conceived sexual reference because although this DVD is apparently unrated, this is definitely M rated fare.

This is a film where all of the actors appear to be the director's mates, all of whom are fellow rockers, musos, and groupies. It doesn't even appear to be scripted, although the sad thing is that it probably was. **Dirtbags** is just a series of misguided and frequently unfunny conversations and non-events, all driven by a bunch of hobos and degenerates who don't possess any likeable qualities at all.

And, as a sex-driven comedy, it's not even funny, crude or even remotely offensive. There's only a smidgen of graphic nudity and blood, and forget about sex scenes because there aren't any at all.

There will undoubtedly come a day when I will curse the very existence of this film. Probably 104 minutes before my death...
