

**BERNIE TORME 'STRATOCASTER GYPSY DVD'
(ANGEL AIR RECORDS/MUSIC VIDEO DISTRIBUTORS)**

New DVD of guitarist BERNIE TORME, who played with GILLAN for a long time, but most of the 2 hours 20 minutes counting DVD 'Stratocaster gypsy' is made up from live video footage of his own projects, on which surprisingly the highlights are the clips with PHIL LEWIS on vocals (LA GUNS/GIRL frontman). Nevertheless, I think his music is a bit overrated as this is nothing but standard rock. If you're a TORME fan, then it is of course a must-have, because there is a lot of footage on this DVD, but musically TORME was always standard rock. Available through: <http://www.mvdb2b.com>
