

# THE BIG TAKEOVER

**bob marley**

**stations of the cross (dvd and cd interview)**

**(Pride DVD/MVD)**

Though this is a film unauthorized by the Marley Family, it does include interviews with both Bob's mother and his son **Ziggy**. It follows the star's back story from his early musical beginnings, his rise to fame as both a performer and reluctant political force, and finally to his early death at 36. While it's not the best Marley documentary, the many scenes and interviews with fellow musicians and Jamaican legends make this worth a look for fans. It also comes with an hour-long interview CD of many rare Marley interviews; unfortunately some are pretty hard to hear. ([mvdb2b.com](http://mvdb2b.com))
