Depeche Mode - "30 Years At The Edge" 2xDVD

Reprising a couple of previously-released Depeche documentaries, this nicely-packaged set is unauthorized, but a wholly entertaining watch for fans of this influential electronic act.

Reflecting on a career that quickly rose from teen-dance pop to dark-edged electronica, these bios feature interviews with many Depeche collaborators, peers, and journalists, and offer critical analysis as well as review of the band's works.

I already reviewed part of this one, "Depeche Mode - The Dark Progression" [here](#).

The other disc I wasn't familiar with, but it seems to have been released previously, as well, under different titles ("Random Access Memory" and "The Ministry Of Sound"), and is less valuable, even going so far as to interview a Depeche Mode cover band. Fans, beware of this dubious release.

Anyone who's not seen any prior unauthorized

documentary bios, pick this one up if it's cheap. ([Pride DVD](#) via [MVD Visual](#))
