

Pink: Still on Fire

(<http://www.dvdsnapshot.com/wp-content/uploads/2013/02/PinkStillStanding.jpg>) **Official Synopsis:**

That Pink is a wholly unique and unsurpassed talent within the current world of pop music is barely open to debate. Still On Fire is a two DVD set that serves as the most comprehensive insight into the life and times of this American phenomenon. Featuring rare performance and interview footage, and contributions from experts and friends, this set will make for fascinating viewing for any Pink fan.

Our Take:

Like so many unauthorized biography DVDs, Pink: Still on Fire is a somewhat interesting look at the life and career of the outspoken musician. With no hit songs and no new interviews, this is not like watching Part of Me: The Katy Perry Movie. But, with two discs and over two-and-a-half hours of material, it's hard not to appreciate the effort that went into this project. There's the usual collection of footage from Pink's appearances on TV and such, as well as interviews with people who have met her or worked with her, and music critics. Overall, it gives a pretty comprehensive look at Pink, but I don't know if the two discs and longer running time were really necessary.

Special Features:

Conclusion:

If you're a fan of Pink, then Pink: Still on Fire will hold you over until she puts out her own authorized

concert/interview movie.

Overall Picture:

Movie: **B**

Extra Features: **B+**
