

KAWABATA MAKOTA & THE MOTHERS OF INVASION

Hot Rattlesnakes

Prophase Music

4 Stars ****

Hot Rattlesnakes is the psychedelic, almost trance-like side project from Acid Mothers Temple guitarist Kawabata Makoto. The freakout guitar licks layered over the hypnotic grooves make for one fantastic listening experience. Imagine the early works of Kraftwerk and Neu with the addition of Peter Green's guitar pyrotechnics from the "End of the Game" era.
