Pendragon The History: 1984-2000

Metal Mind

[Progressive Rocks elder statesmen's finest moments... Reviewed In-Brief](#)

With a career spanning just over 16 years, Pendragon took the bare bones of 70's progressive rock and gave it a far more appealing exterior. Buried under breath taking musicianship, their songs were less edgy and more soulful, in fact it'd be fair to say over the top in places, but enjoyable nonetheless, They may not be as innovative as Genesis, nor as exciting as ELP on a good day, but they're definitely worth cocking your ear towards!
