**Roswell Six - Terra Incognita: A Line In The Sand**

ProgRock Records

file under prog / sympho metal

Winston: Exactly one year ago the ProgRock Records label released the first album of Roswell Six; 'Terra Incognita: Beyond The Horizon'. Based on a fantasy novel by writer Kevin J. Anderson a selection of fine prog rock singers and musicians crafted a very nice concept album and now a follow up is here! Mostly new names continue the story, among them Kansas singer Steve Walsh (who struggles to reach all the notes), ex-Dream Theater singer Charlie Dominici, ex-Saga singer Michael Sadler (also on the

first album) and surprise Sass Jordan. Our own Arjen Lucassen is a guest too but remarkably just on vocals!

A spicy and flamboyant mix of firm prog rock is served here and the second seems to carry more depth than the first one. Taking the lead of the music this time is Henning Pauly, a multi instrumentalist, on the first one it was keyboard man Erik Norlander and that was noticeable as the main focus seemed to be on the keyboards. Almost needless to say that this album is very interesting for the seasoned prog rocker, although it is an extra pity realizing that a project like this will never see the light of day on a live stage.

Rating: 88/100 (details)<http://www.myspace.com/roswellsix>
