EMPRESS HOTEL - Heavy Halo: If you're into bands such as Sparks and Roxy Music then you'll love this record. It's been described as pop but I'd have it down as unique sounding due to the amount of influences and original ideas thrown in to the sound. That's what I like about New Orleans there's always something good coming out that scene and the latest sensation for me is Empress Hotel with this album. If you listen to tracks such as 'Mach Bach', Heavy Halo', 'Empress Hotel' and 'Last Picture Show' you'll begin to understand why I'm banging on about these guys so much. I have played this album to death! In fact I played it that much I actually forgot to review the bugger! 8.5/10
