LONG JOHN BALDRY – It Ain't
Easy: Live At Iowa State
(Quantum Leap)

A 1987 performance in Iowa (what's John Baldry doing in Iowa)? He truly is a legend, a musician's musician. You gotta love his "Iko Iko" and "Don't Try To Lay No Boogie Woogie..." (despite the overlong and pointless intro). Kathi McDonald sings on a cover of "You Make Me Feel Like A Natural Woman." Kind of an odd choice, but nice vocals.

Long John became late in '05.
