

THE CHARMS

The Charms

"Easy Trouble" (Red Car Records)

By: Paul Autry

Even though this is a rather simple DVD to describe, it's still an amazing release. Basically, it's a raw, up close and personal look at The Charms...kind of a Behind The Music if you will, with interviews featuring the band members, the manager and Steven Van Zandt, who happens to be a fan/supporter of the band. It's the story of The Charms...the good, the bad and everything in between. It was directed and produced by Ben Oliver and, let me tell you, he did one hell of a job. He managed to squeeze the first three years of the bands existance into one nice, neat, entertaining package and, to be honest with you, I'm not at all familiar with the band. This is the first time I've heard of them. But, this release made me a fan. Yes, it's that good and that's all that really needs to be said.
