

**Jack Bruce &  
Robin Trower,**  
*Seven Moons Live*  
(Ruf) The lion's

share of the first live release by Trower and Bruce is culled from their 2008 reunion, *Seven Moons*, with only "Carmen" thrown in from 1981's *B.L.T.* — nothing from singer Jimmy Dewar's long tenure. There's plenty of stellar guitar, although covers like "White Room" and "Politician" seem a bit limp compared to Cream's '05 reunion renditions, let alone original recordings. — **DF**
