

## Rock N Roll Experience - May/June 2006

THE SMITHS  
Under Review DVD  
Track Listing:  
Rating: 4 Stars

Under Review is an interesting series of dvd's that basically offer up a documentary on your favorite bands...the one I am reviewing right now focuses on The Smiths. This was the band that gave Morrissey his start, & The Smiths are probably the darling creators of emo indie rock that was more about heartache & heart break than decadent sex & crazy parties, which was a direct parallel of opposites to what was actually going on in mainstream music when The Smiths came out. "How Soon Is Now" is featured in the dvd in a rare clip that I've never seen before, & there's actually quite a bit of Smith's rare videos' scattered throughout this dvd, & that is rare, because often times these un-official documentaries are not allowed to show actual footage of the subjects with their actual music for legal reasons. I did get a little annoyed at times with certain interview segments, because there's no way that some people could know or understand exactly what the band was thinking or going through, but it is interesting & put together well, & this dvd is well worth checking out if you are a Smith's fan! If you'd like to get a copy of this dvd, you can get it at [www.musicvideodistributors.com](http://www.musicvideodistributors.com)
