

GUNS N ROSES  
2 Classic Albums Under Review DVD  
Use Your Illusion 1 and 2  
(MVD Visual)

I always thought Guns and Roses was an overrated band and that "Appetite For Destruction" was one of the most over rated albums ever. I didn't like Use Your Illusion 1 or 2 and after watching most of this DVD my opinion didn't change. I think the band was a poor man's Aerosmith and while they have a couple decent tunes, I think the band is way overrated. Now if your a fan of the band, you'll like this as the interviews with the band are cool and since the band is no longer around, this might be a nice trip back in time for all you hair metal freaks. Me I'll pass on this. Info: <http://www.mvdb2b.com>
