

# **ROCK N ROLL EXPERIENCE - November / December 2007**

## **GUNS N ROSES**

**2 Classic Albums Under Review; Use Your Illusion 1 & 2**

**Track Listing:**

**Rating: 5 stars!**

In all honesty, there are some weird parts of this dvd, like they show pics of the band that are older than the era that this dvd is supposed to be about, but this dvd is cool because it chronicle's the bands last era when they were still 3 of the original 5 members. There's loads o' interviews, cool concert clips, & again, I don't understand why they chose to use an Appetite For Destruction era picture for a dvd about the UYI era, but as it is, it's still a cool compilation of clips, interviews, & it really gives details of the last era of the band before it was just AXL! This DVD is a must have for the GNR fans!
