IRON MAIDEN AND THE NEW WAVE OF BRITISH HEAVY METAL DVD (MVD) This is a cool DVD for those who have only read about this movement. This traces it from the get go and I was around in this era to a point, and I am a fan of early Def Leppard, Iron Maiden, and I love Saxon. You get interviews with some of the writers from Kerrang and Metal Hammer as well as some early members of Iron Maiden. It is a cool look at an era that is still talked about today with passion. At over 2 hours this is well worth getting into my friends. Info:
