While the bulk of this DVD is certainly a tribute to what the genius of **NINE INCH NAILS'** Trent Reznor has done for the Industrial Metal Music scene, it is so much more than that! I have to say that, "I have NEVER, in my life learned so much about one style of music as I did from this DVD"!!! I literally had no idea that Industrial/Experimental Rock-Metal had traces back all the way to 1975 with bands like **THROBBING GRISTLE** and **CABARET VOLTAIRE**, but on this DVD, you learn about them and the entire array of artists who started, were part of, and crafted this movement from beginning to, what is considered the peak with the

full onslaught of **NINE INCH NAILS**.

You get interviews with some of the best journalists and biographers in the business like *Revolver Magazine* and *Metal Edge Magazine* writer **Jon Wiederhorn** and **Chris Vrenna** and **Richard Patrick**, both former members of NIN, themselves! As an added bonus, there's exclusive video interview footage of **Genesis P-Orridge**, the founding female force behind **THROBBING GRISTLE** and never before seen live footage of all the bands that take part in the journey. The list of bands is too numerous to mention, but some of the standouts are, in addition to the aforementioned, **DEPECHE MODE**, **SKINNY PUPPY**, **MINISTRY**, **CHEMLAB**, **KRAFTWERK**, and many more!!!

This is obviously the most thorough work ever done on the subject of Industrial Music, and even if you're not a fan of the genre (as I am not really myself), this is an exciting DVD for the sheer learning experience and live footage of how it all came together.

An extremely entertaining adventure and peek in to the mind of one of today's most brightest visionaries. Very, Very Highly Recommended!!!
