Dude it's a pretty good movie once you watch it from start to finish not going to lie it's high resolution with a low budget camera lol but it's worth the watch..

I got it for \$7 bucks about a year ago

[mrparka](#) @[columbusdinner](#) i'll have to rewatch it, what i did see seemed like a bunch of clips thrown together but that was like the first 15 - 20 mins of it

[jaythestingray](#) Great review. I just found out these are on netflix to watch instantly. I will check these out for sure! Looks decent for a low budget.
