Where the Dead Go to Die (2012)

Director: Jimmy ScreamerClauz

Where to get it: MVD

"Where the Dead Go To Die" revolves around a troubled group of children living on the same block. They are haunted by a talking dog named Labby who brings them on surreal hell-rides between different dimensions and time periods. On the night of a lunar eclipse he informs Tommy about the devil fetus living inside his mother. The same night he attempts to help Ralph court the girl across the street, who is an unwilling participant in her father's child porn tape trading ring. Add in a memory stealing junkie living inside an abandoned church and you have 90 minutes of pure mind melting insanity!

What we have here is a film that is a products of an Xbox Kinect motion capture. Which is on one hand really kinda cool and different. Then on the other hand it causes some awkward and slow-ish animation at times. You also got a plot that circles around child pron and other fun for the whole family issues. With scenes like a kid having sex with a demon dog all the while the dog is having sex with the kid's dead mother, you might need to expect a lot of shocking stuff overall. It's all animated, but it's still trying to push a lot of issues. The amount of blasphemy this thing brings can kinda make you believe you are in hell there for a bit while watching. I don't know if I'd say I was ever THAT offended, but I do believe hell has to be a lot like this. That being the case, I still found it rather interesting..believe it or not.

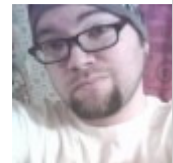

I'm not sure what type of drugs come into play when putting together something like this, but credit should be given for the results. By the time the movie moves on into the child porn story at the end, you've been shocked enough that it isn't THAT shocking when you get to it. Thank goodness it's all animated or you might see this director in jail for something like this. What you see does at times come across like some motion sequence from an old Playstation 2 game, but I'm sure there wasn't a big budget and what should we expect? I give it props for being creative and for having the guts to do what it does. But by the time it ends, you are kinda ready for it to be over. But in a year where we have yet to have much that stands out, this does stand out among most.
