Lil Wayne 'No Ceilings'

Wienerworld

If you are a fan of Lil Wayne, Cash Money and YMCMB then you will certainly enjoy watching this DVD. It features full length classic and underground videos such as 'Lollipop', 'Ms. Officer' and 'Speaker' with Snoop, Akon and David Banner plus more. You get to see approximately 2 hours long of never-before-seen and behind-the-scene footage, live performances and interviews. The live performances are clear, sometimes these types of DVD's tend to show crusty live performance footage with annoying interludes and sound problems but this just flows perfectly through videos, performances and footage. You also get a full itinerary of everything featured on here so it's easy to skip if you want to just watch the live performance in London or watch the behind the scene footage from videos such as 'Bedrock' or 'Money 2 blow' amongst others. 'No Ceilings' features artists such as Baby, Jay Sean, Drake, Nicki Minaj, Mack Maine freestyling outside the Jimmy Kimmel show and much more. An official well put together DVD by Hoodpromo TV Studios and J5 Entertainment, released in the UK by Wienerworld on July 23rd 2012.
