His wit tinged with a vulgar brand of comedy has you laughing out loud and cringing just a little. With tracks entitled “Tazer ‘Em” and “Porn Shop Bailout”, you are guaranteed an original comedic point of view unlike any other.

Robert Duchaine's [new comedy](#) CD "Offensive and Not in a Good Way" lives up to his promise of being offensive, but it is in the best way possible.

His wit tinged with a vulgar brand of comedy has you laughing out loud and cringing just a little. With tracks entitled "Tazer 'Em" and "Porn Shop Bailout", you are guaranteed an original [comedic](#) point of view unlike any other.

Talking about how serial Killers make nice neighbors because they are so quiet and keep to themselves is just the beginning of how wonderfully politically incorrect Robert's material is. He will have your full attention when he covers topics such as smoking during pregnancy and tazing your children.

Robert Duchaine sounds bitter but brilliant on this CD. His dry sarcastic wit is a welcome change from other [comedians](#). His jokes can be dirty and over the top, but in a way that will make you crave more of them.

After listening to "Offensive and Not in a Good Way" I got on my computer to check if Robert Duchaine would be performing near my home as I wanted more. I am sure after listening to his CD you will do the same.
