

# Kristin Key: The Moral of the Story

COMEDY | JUNE 18, 2013 | BY: ANGELA FRISSORE |

Kristin Key is not your average funny lady.

Comedian Kristin Key's new CD "The Moral of the Story" ([Uproar Entertainment](http://www.uproarcomedy.com/) (<http://www.uproarcomedy.com/>)) is just an absolute delight from start to finish. Key, who has appeared on "Last Comic Standing" and "The Improv", breaks all sorts of boundaries with her no-holds-barred take on lady parts, vodka-soaked tampons, and having children.

"I just don't think I could ever love something that did that to me," Key states, after describing an advertisement she recently saw for vaginal mesh implants. "It's hard not to blame your child for the rest of your life, you know – they just turned your area...you know those old cars, how the inside roof is just sagging? With like cigarette burns in it?"

It's not often that a female comedian is able to broach topics that their male counterparts can joke about with ease – like their own assholes or selling their personal parts for money - but Key effortlessly glides from talking about her nephew

**RATING FOR THE MORAL OF THE STORY BY KRISTIN KEY**

confusing her for a man to wishing she had the nerve to actually try putting a vodka-soaked tampon inside of her own body in such a way that nothing she says seems quite as, well, colorful as it actually is. Yes, Kristin Key can dish out fart jokes in a way that I've never seen any male comic do thus far.

Towards the end of Key's performance, she picks up her guitar and belts out a few hilarious Texas-style songs ranging from her love of a sandwich to the crap which is reality television. Key has the perfect recipe for incorporating funny songs into her act – save them for the end, rather than try to interject them throughout her set. It's a refreshing and highly entertaining way to round out an exceptional recording.

Key's comedic timing and ability to recall jokes from earlier in her set is incredible as she floats seamlessly through her set. There are no awkward pauses or comments from the audience to throw Key off – instead, Key delivers a solid hour of absolutely brilliant [comedy](#) (<http://www.examiner.com/topic/comedy>).

Kristin Key's "The Moral of the Story" is a great example of what a perfect comedy recording should be like. Grab your copy at [iTunes](#) (<http://itunes.apple.com/us/album/the-moral-of-the-story/id651254495>) today, and, please - skip the vodka super-plus when you're listening.
