

FIFTY CALIBER KISS/Armor Class Invincible (MVD)

This was some warped, fucked up shit. The band mix in some old Pantera with some down n dirty metal with some trashy vocals to boot. The band isn't groove, it's not thrash or death metal, it's crazy metal ha ha. The band use those screaming tough guy vocals that I fuckin hate, but the music is warpy in spots. This is a band you will either love or hate. You choose. Info:
